

Co-published by the [Institute for Parks, People, and Biodiversity, University of California, Berkeley](#) and the [George Wright Society](#).

Parks Stewardship Forum explores innovative thinking and offers enduring perspectives on critical issues of place-based heritage management and stewardship. Interdisciplinary in nature, the journal gathers insights from all fields related to parks, protected/conserved areas, cultural sites, and other place-based forms of conservation. The scope of the journal is international. It is dedicated to the legacy of [George Meléndez Wright](#), a graduate of UC Berkeley and pioneer in conservation of national parks.

Parks Stewardship Forum is published through [eScholarship](#), an open-access publishing platform subsidized by the University of California and managed by the California Digital Library. Open-access publishing serves the missions of the Institute for Parks, People, and Biodiversity and the George Wright Society to share, freely and broadly, research and knowledge produced by and for those who manage parks, protected areas, and cultural sites throughout the world.

The journal continues *The George Wright Forum*, published 1981–2018 by the George Wright Society.

Parks Stewardship Forum is distributed under a Creative Commons Attribution-NonCommercial 4.0 International License (CC BY-NC 4.0) that allows others to copy, distribute, translate, adapt, and build upon original submissions to *Parks Stewardship Forum*, as long as they provide appropriate credit to the author(s) and do not use the submission for commercial purposes. Anyone who uses or redistributes the submission under this license must indicate any changes that were made, must link to the license, and cannot imply that the author endorses them or their use. CONTRIBUTING TO PARKS STEWARDSHIP FORUM

We welcome proposals for papers in PSF’s two main departments: “New Perspectives,” for non-peer-reviewed articles that will be evaluated solely by the journal’s editors; and “Advances in Research and Management,” for articles that will undergo formal peer review. We also welcome proposals for “The Photographer’s Frame,” our regular feature in which contributors tell a compelling conservation story in photographs.

More information and manuscript submission guidelines may be found at:

<https://www.georgewrightociety.org/psfsubmissions>

The UC Berkeley Institute for Parks, People, and Biodiversity aims to bring an interdisciplinary approach to the research, management, and protection of our national, state and local parks and public lands. Recognizing that parks and public lands play an increasingly important role in climate adaptation, public health, education, jobs, and environmental justice, the Institute will serve as convener, research coordinator, and bridge between field managers and the academic community.

The Institute is devoted to the investigation, dissemination, and application of science to the critical issues facing national, state, and local parks, and equivalent protected areas. The Institute fosters cross-disciplinary research, applied science, policy, and field management, and also strives to help prepare the next generation of conservation leaders in academia and in the field.

<https://parks.berkeley.edu>

The George Wright Society advances the scientific and cultural resource values of parks, protected and conserved areas, and other forms of place-based conservation. The Society promotes research and resource stewardship across disciplines; brings practitioners together to share their expertise; provides avenues of communication among scholars, researchers, educators, practitioners, and the public; and supports informed conservation decisions and management actions that embrace these values. By uniting people from many different backgrounds around a common passion for protecting Earth’s natural and cultural heritage, we create the collaboration needed to meet today’s greatest conservation challenges.

POINTS OF VIEW

LETTER FROM WOODSTOCK

- 437 Thinking and acting anew
Rolf Diamant

COLORING OUTSIDE THE LINES

- 442 Social actions, parks, and persistent inequities: Does systemic racism and structural power activate increased access?
Nina S. Roberts

THEME ARTICLES

CONNECTIVITY CONSERVATION: SUSTAINING NETWORKS FOR ECOLOGY AND COMMUNITY

Jodi A. Hilty, Aaron T. Laur, Gabriel Oppler,
and Gary Tabor, guest editors

- 448 Connectivity conservation:
The time is now
*Gabriel Oppler, Jodi A. Hilty,
Aaron T. Laur, and Gary Tabor*
- 456 Ensuring area-based conservation
meets the twin challenges of
biodiversity loss and climate change
*Stephen Woodley, Jonathan Jarvis, and
Andrew Rhodes*
- 464 Ecological networks and corridors in
the context of global initiatives
Jodi A. Hilty and Aaron T. Laur

- 477 Advancing marine conservation
through ecological connectivity:
Building better connections for better
protection
*Zachary J. Cannizzo, Barbara Lausche,
and Lauren Wenzel*

- 488 Emerging policy opportunities for
United States–Canada transboundary
connectivity conservation
*Karen F. Beazley, Gabriel Oppler,
Leanna R. Heffner, Jessica Levine,
Aaron Poe, and Gary Tabor*

- 505 Build back a better national landscape
conservation network
*John Mankowski, Greg Wathen, Aaron Poe,
Rua Mordecai, and Anna Wearn*

PAPERS FROM THE 2021 GEORGE WRIGHT SOCIETY STUDENT SUMMIT: SOCIOENVIRONMENTAL JUSTICE

- 517 Cultivating sovereignty in parks and
protected areas: Sowing the seeds of
restorative and transformative justice
through the #LANDBACK movement
*Jonathan J. Fisk, Lara A. Jacobs,
Brigitte Ululani Kekahiliokalani Russo,
Erica Meier, Alohi Nakachi,
Kekaha K.P. Spencer, Kainoa Kaulukukui-
Narikawa, Amber Waialea Datta, and
Kalani Quiocho*

DAVID RESTIVO / NATIONAL PARK SERVICE

2021 GEORGE WRIGHT SOCIETY STUDENT SUMMIT PAPERS (cont'd)

- 527 (Re)Centering social justice: Thinking about co-management of and access to parks and protected areas in the United States
Cait M. Henry, Lydia Kiewra, Eleanor M. Knight, Camila Rojas, and Jaclyn R. Rushing
- 534 Green inequities: Examining the dimensions of socioenvironmental injustice in marginalized communities
Akiebia S. Hicks, Zachary Malone, Megan A. Moore, Roslynn Powell, Austin Thompson, Patricia A. Whitener, and Rowan Williams
- 541 Mental health benefits of natural spaces and barriers to access in the age of COVID-19
Shelby Defeo, Trina Das, Emily Trendos, and Taylor Hooker
- 546 Navigating assumptions of wildlife viewing impacts
Lindsey Ellett, Seth Gibbons, Jessica Gilbert, Jesann Gonzalez Cruz, and Ariful Islam
- ### NEW PERSPECTIVES
- 552 Monitoring phenology in US national parks through citizen science: Some preliminary lessons and prospects for protected areas
Alyssa Rosemartin, Tim Watkins, and Abraham J. Miller-Rushing

- 561 Challenges that rangers must face: Four rangers from Mexico, Costa Rica, Honduras, and Colombia tell their stories of diverse realities across Latin America
Jon Kohl
- 571 A visionary's lens on wildlife and parks revealed: George Meléndez Wright and the National Park Service's Wildlife Division photographs
Jerry Emory and Nancy J. Russell
- 585 National parks as American covenants
Michael A. Soukup and Gary E. Machlis

ADVANCES IN RESEARCH AND MANAGEMENT

- 592 Relief from summer warming: Devils Postpile National Monument's cold air pool supports a refugium-based conservation strategy
Daniel R. Cayan, Monica Buhler, Jordan P. Goodrich, Deanna Dulen, and Douglas Alden

THE PHOTOGRAPHER'S FRAME

- 604 Connectivity conservation: Supporting thriving ecosystems for people and planet
Austin Schuver and Gabriel Oppler

VERSE IN PLACE

- 616 Lifeless List
J. Drew Lanham
